XTT - eXtensible Task Toolkit - Bug #129

Overlapping task-initations break merge-support

2012-11-26 13:52 - Ingo Lütkebohle

Status:	New	**Start date:**	2012-11-26

Description

When the initiated message for the next task of a type arrives before the previous complete, merging them into an interval doesn't work as expected, because the immediately preceding event is not a merge candidate. This has to be fixed by also considering prior events and their task states to identify merge candidates.
