

Cognitive Interaction Toolkit - Feature #236

Include "green balls" Jenkins plugin in Jenkins tar.gz

2014-05-09 11:53 - Florian Lier

Description			
Please include the "green balls" Jenkins plugin in jenkins.tar.gz because "blue balls" IMHO are semantically not exactly distinct. I also noticed that a lot people who are working with Jenkins for the first time can figure the meaning of red vs. blue. Additionally, green is (at least in most parts of the world) the semantic counterpart of red (which is the default in Jenkins)

I like the blue balls. ;) I would vote against a plugin that is not absolutely necessary. The distribution is already brittle enough.
