

Cognitive Interaction Toolkit - Feature #316

Prevent Jenkins from Checking out any SCM more than once

2014-10-29 23:27 - Florian Lier

Status:	Resolved	Start date:	2014-10-29
Priority:	High	Due date:

History

#1 - 2014-10-30 10:09 - Florian Lier

- Description updated

This seemed promising [1], but does not work properly [2]

[2] <https://issues.jenkins-ci.org/browse/JENKINS-20059>

#2 - 2014-10-30 10:42 - Johannes Wienke

Maybe the easiest solution would be to generate non-matrix jobs in case only one slave is involved in a job?

#3 - 2014-10-30 10:47 - Florian Lier

Yes.. that would be a fine solution. I was just looking at the Jenkins API which is nicely documented but also quite huge. Ideally, just one checkbox is needed in the matrix-job configuration which says

[x] Do not checkout before triggering a node

However, at @Jan: Is this a huge change in the build-gen?

#4 - 2014-10-30 16:43 - Jan Moringen

Using "normal" instead of matrix jobs should be doable.

#5 - 2014-10-31 15:29 - Sebastian Meyer zu Borgsen

This would be great.

Can this be done by modifying the templates or does it require changes in the configurator?

I found this comment in the code: "#:kind ; matrix or regular; setfable"

But does not seem to be implemented yet.

**#6 - 2014-10-31 15:34 - Jan Moringen**

Different kinds of jobs are implemented at a basic level. Buildflow jobs are of a different kind as well, for example.

What is missing is either some logic in the generator to only generate matrix jobs if multiple slaves are assigned or a mechanism to control the kinds of generated jobs from templates.

**#7 - 2014-11-22 10:25 - Florian Lier**

What is the current status of this issue?

**#8 - 2014-11-24 09:44 - Jan Moringen**

What is the current status of this issue?

Didn't get to implementing the feature yet.

**#9 - 2015-01-05 17:19 - Florian Lier**

Did you make any progress on this, Jan?

**#10 - 2015-01-05 17:21 - Jan Moringen**

There is an initial implementation of non-matrix jobs in the master branch of the generator. I have to fix some issues before it will be usable, though.

**#11 - 2015-01-05 17:23 - Florian Lier**

Yeah, that's the work I gave you feedback on in December (I guess).

**#12 - 2015-01-05 17:24 - Jan Moringen**

Yes, I couldn't finish it last year. Will try now.

**#13 - 2015-01-06 14:49 - Jan Moringen**

- Status changed from In Progress to Feedback

Should work now.

**#14 - 2015-01-07 15:55 - Florian Lier**

- Status changed from Feedback to Resolved
