Description			
Projects using ICL always show open source version information			
"application -version" prints a text like this:			
Part of the Image Component Library (ICL)			
ICL Version 5.1.0			
Copyright (C) 2006-2010 CITEC, University of Bielefeld			
Neuroinformatics Group

Not all projects using ICL are meant to go open source. It would be nice to have a function to set a different version information text.
