<b>Target version:</b>	icl-8.0		
<b>Description</b>			
<ul style="list-style-type: none"><li>• remove obsolete examples</li><li>• join some examples</li><li>• PERHAPS: split examples to [test examples apps]</li></ul>			

### History

#### #1 - 2012-08-20 14:52 - Christof Elbrechter

Update:

- new Idea: Do not create an extra apps folder
- instead leave apps and examples together
- *but* try to create some gtests and move them to the test folders

#### #2 - 2012-08-24 09:57 - Christof Elbrechter

- Status changed from New to Closed

- Assignee set to Christof Elbrechter

- % Done changed from 0 to 100

- moved some examples to test
- cleaned up obsolete examples (135 before, 85 now)
- renamed some examples  
created naming convention:
  - xxx-test for tests (also separated in test-folder)
  - xxx-example for non-interactive and non-gui example applications (in examples)
  - xxx-demo for non-reusable, but exemplary (interactive and gui-based) demo applications
  - xxx for real applications like icl-viewer, icl-pipe etc.
- renamed some of the reusable applications (e.g.)
  - icl-camviewer > ~~icl-viewer~~
  - icl-camcfg > ~~icl-camera-configuration~~
  - icl-cam-calib-2 > ~~icl-camera-calibration~~
  - and some others ...
